RE: Comments on June 2026 Ambient Air Monitoring Activities,
City of Galena Construction and Demolition Landfill, Permit No. 738

Dear Ms. Roberts,

The Kansas Department of Health and Environment, Bureau of Waste Management (KDHE-BWM) has reviewed the submitted June 2026, ambient air monitoring activities report for the City of Galena C&D landfill solid waste permit number 738. The ambient air monitoring activities were conducted on June 19, 2026 by TriCore Group, LLC, in accordance with K.A.R. 28-29-333 and the approved ambient air monitoring protocol dated October 6, 2025.

The report was submitted for compliance with Kansas Administrative Regulation K.A.R. 28-29-333(a)(4). The report does not show concentrations of gas that meet or exceed the action levels for methane or hydrogen sulfide outlined in K.A.R. 28-29-333(b).

My telephone number is 785-291-3745 or you may email me at: finn.collins@ks.gov if you have any questions or comments.

Sincerely,

Finn Collins
